UNSC HALBERD DESTROYERS

Fast and requiring only a small crew, what the *Halberd*-class Destroyer lacks in general-purpose utility it makes up for in firepower, making it superb for escort duty with vessels such as the *Orion*-class, *Epoch*-class and *Valiant*-class. The contents of this boxed set are designed to be used by players of **Halo: Fleet Battles** to augment their existing fleets, using the *Halberd* to replace their *Paris*-Class Frigates. Mirroring the stripped down feel of the *Halberd*, the rules deliver a fast and furious vessel that really does punch above its weight! Also included in the box are Formation Bases and Ship Overlay Sheets for all models.
